SEASON**

Player Development Initiatives

The coaching and playing environment needs to be improved for 6-12 year old's

Too much emphasis placed on the result of the game

The priority should be to develop skills and abilities

Long-term development of players is the top priority

•Kids under the age of 12 don't win World Cups so we should not treat them like adults or professional players

Players need to be put in the best possible environment to succeed

There are no shortcuts Success requires a long-term approach and commitment
